

# PTSC 2618VM

Portable Tower | Superior Toughness | On-Site Processing

## PORTABLE SCREENING PLANT

AGGREGATE AND  
MINING GROUP

The PTSC is a portable screening plant designed for in-line material processing and durability for site-to site movement. Featuring a double deck PEP Vari-Vibe® high frequency screen, the PTSC 2618Vm is protected in high impact areas for longer machine life. Whether removing fines in pre-screening applications or post-screening applications, these plants are ideal for existing circuits needing more production. This portable screening plant provides the highest screen capacity in the market for material separation ranging from 1" to 30M.

# PTSC 2618VM

16 Foot

Loading height of shoe hopper.

50 HP / 80 Gallon

80 Gallon hydraulic power unit.

350 TPH

Can process up to 350 TPH or more of feed material.

1" to 30M

Standard material separations range.

## PERFORMANCE

- P1 Double deck PEP Screen**  
Highest capacity screen on the market for separations in this range.

## DURABILITY

- D1 Heavy Axle**  
Single axel assembly with four (4) 11R22.5 tires.

## SAFETY

- S1 Outriggers**  
Manually operated support legs and adjustable outriggers for stability.

## EASE-OF-USE

- E1 Increased Ground Clearance**  
Transport and maneuver the system easily.
- E2 Vibrators**  
Hydraulic or Electric vibrators available for a variety of applications and

### STEALTH TAPPETS

Redesigned variable speed hydraulic vibrator tappets produce less sticking of material and better wear. Fourteen tappets are mounted below the screens for directly induced vibrating action.

### HIGH FREQUENCY SCREEN

A double deck PEP Vari-Vibe® high frequency screen with hydraulic screen angle adjustment and rotary screen tensioning system can meet different aggregate application demands with ease.

### SUPERIOR FINES REMOVAL

The PEP screen is unmatched in the industry for fines removal, especially in the 1/2" minus range in a wide range of applications, from crushed stone to RAP.

### PART OF THE ASTEC FAMILY OF EQUIPMENT.

Designed for serviceability and performance with the end user in mind the PTSC offers a great cost per ton ratio.

### SERVICE MADE EASY

Because we're dedicated to keeping you up and running, we've provided two resources for quality O.E.M. parts and 24/7 service. Astec Mobile Screens parts and service are available from your local dealer and/or representative at 800.545.2125

**Find the dealer or representative nearest you at [www.kpijci.com](http://www.kpijci.com).**

Because Astec Mobile Screens may use in its catalog & literature, field photographs of its products which may have been modified by the owners, products furnished by Astec Mobile Screens may not necessarily be as illustrated therein. Also continuous design progress makes it necessary that specifications be subject to change without notice. All sales of the products of Astec Mobile Screens are subject to the provisions of its standard warranty. Astec Mobile Screens does not warrant or represent that its products meet any federal, state, or local statutes, codes, ordinances, rules, standards or other regulations, including OSHA and MSHAGATOR, covering safety pollution, electrical, wiring, etc. Compliance with these statutes and regulations is the responsibility of the user and will be dependent upon the area and the use to which the product is put by the user. In some photographs, guards may have been removed for illustrative purposes only. This equipment should not be operated without all guards attached in their normal position. Placement of guards and other safety equipment is often dependent upon the area and the use to which the product is put. A safety study should be made by the user of the application, and, if required, additional guards, warning signs and other safety devices should be installed by the user, wherever appropriate before operating the products.
